

Citizens and residents of the European Union, the Schengen area, the United Kingdom of Great Britain and Northern Ireland, Andorra, Monaco, San Marino and Vatican

	Vaccinated persons / persons who have previously been infected with the COVID-19 disease. From all countries.	Persons who are not vaccinated/ who have not previously been infected. 14-day infection rate < 75.1 new cases per 100,000 people per day	Persons who are not vaccinated/ who have not previously been infected. 14-day infection rate 75.1–200 new cases on average per 100,000 people per day		Persons who are not vaccinated/ who have not previously been infected. 14-day infection rate > 200.1 new cases per 100,000 people per day	
Negative test certificate requirement	NO	NO	NO	Yes, if the person does not want to be tested at the border	NO	Yes, if the person wishes to shorten self-isolation / do not wish to test at the border
Testing requirement on entry / after entry	NO	NO	In the absence of a negative test certificate, the test must be performed when entering the country. Until the result of the test is known, the person is required to self-isolate.	Persons who have a negative test certificate are not required to undergo testing when entering the country.	If there is no negative test certificate, the test must be performed upon entry. If a person wishes to shorten the time of self-isolation, a second test is required not earlier than on the sixth day after the first test.	If a person has a negative test certificate, the test is not required when entering the country. If a person wishes to reduce the self-isolation time, a second test is required no earlier than the sixth day after the test on which the negative test certificate is based.
10-day self-isolation requirement (can be shortened if the result of the second test is known)*	NO	NO	NO		YES
