Upholding a free, open, safe  
and secure cyberspace

11-15 November

DRAFT AGENDA\*

## Tallinn Summer School of Cyber Diplomacy 2024!

In 2024, the rapidly evolving digital landscape has further cemented the significance of cyber diplomacy in international relations. Cybersecurity and digitalisation are pivotal in diplomatic discussions, addressing challenges such as state-sponsored cyber operations, cybercrime, and the strategic impacts of emerging technologies like AI. The need for cohesive international collaboration and governance has never been more critical.

Participants are invited to join discussions at the intersection of foreign policy and technology, and to explore the cyber policies and practices of regional and international organisations.

### Topics and Agenda

Day 0 (10 November) — Icebreaker at POCO in Rotermann City  
19:00 — 22:00

Day 1 (11 November) — Digital and Cybersecurity Foundations. The evolution of emerging technologies (AI).

**Theme:** The first day of the course will establish the context for the work of a cyber diplomat by covering the fundamentals of cybersecurity — not as an end in itself, but as an enabler for a functional digital society that benefits its people and economy. Why do states engage in digitalisation and why does cybersecurity matter? What are the key threats and vulnerabilities, who are the threat actors,

14:30-15:30	Case study: Tallinn Mechanism
15:30-16:00	Coffee break
16:00-17:00	Case study: Story of Estonia’s reform through digitalisation and cybersecurity.

## Day 5 (15 November) – Practical workshop/ exercise and wrap-up

**Theme:** The final day is dedicated to applying the knowledge and skills learned through a practical workshop/exercise, so they are equipped to not just understand but also actively engage in the formulation and execution of cybersecurity policies within their respective national contexts. The workshop aims to bridge theoretical knowledge with practical skills, preparing participants to make informed, strategic decisions in the realm of cyber diplomacy. This capacity ensures that they are well-equipped to handle real-world cyber challenges, influencing both the formulation of national positions and the international cybersecurity landscape.

The course concludes with a review of key insights and the handover of course diplomas.
